Instructions for manual security override on Mac

1 Go to the apple symbol in the top left corner and click it.

2 Go to System Preferences.
3 In System Preferences, click the Java Panel.
4 In the Java Control Panel, click the Security tab.
5 In the Security tab of the Java Control Panel, click Edit Site List.
6 In Exception Site List screen, click Add.

7 Insert url: https://ochre.lib.uchicago.edu, then click OK.
8 In the Java Control Panel, click OK
9 You might see a warning. Click Run. If the same screen shows up again, tick the box ‘I accept the risk …’, click Run. Repeat until it finally accepts that you really wish to run OCHRE.

10 Now you are in OCHRE:
